

UK Cherub Class Owners Association

Yearbook 2007

UKCCOA Year Book 2007

The Presidents Message

Welcome to our new 'Member's Handbook'. This is the first time that we have had a paper publication containing details of all the Cherubs ever registered in the UK. I hope that you will enjoy looking at all the strange names and designs, and re-living our amazing history.

2007 promises to be an incredibly exciting year for the class. We are delighted to welcome Hartley Laminates as a new class builder. They will be offering an off-the-shelf boat based on the 'Cardinal Sin' (2693). Hartley Laminates are also an integral part of the 'Demon Project'. The Demon is a one-design, built to the 2005 Cherub rules, that Richard Taylor has submitted to the ISAF Women's Olympic Skiff trials! I am sure that you don't need me to tell you just what an amazing opportunity this is, and we wish him all the very best of luck in Hyeres.

Back at home we have a fantastic National Championships in Weymouth. This year it will be a full six days of fun filled action, with sponsorship from Velocitek. They will be providing fabulous prizes, beer, a welcome reception and 5 Velocitek units for daily post-race debriefing!

We have a wonderful series of Open Meetings organised, as well as plenty of blasting and training days and the ever popular Sticky Weekends.

I hope to see as many of you as possible on the water for the racing, especially at the 2007 Velocitek Cherub Nationals!

We also have a sponsor for the Scottish National Championships: Magellan Flags will be providing prizes in the form of a GPS unit and some excellent bags. The Championships will once again be The Round Cumbrae race, part of Largs Regatta. As anyone who took part in this marathon event last year will tell you, it is one hell of a trip!

Lucy

UKCCOA Year Book 2007

The Committee 2007

Name: - Lucy Lee

Position: - President

Boat: - 2688 Atum Bom

Sailing History: -

I started in Dayboats, Wayfarers and an ancient Mirror then moved on to a 470 and a Laser II before trying to muster enthusiasm for the Larks at University.

First sailed a Cherub in 1997 in not much wind, then again in 1998 in big wind and waves and was smitten. I took a year or two out of dinghies (and the rest of life) to sail a very small catamaran to the Cape Verde Islands.

The current Cherub extravaganza started in 2003 with Norwegian Blue, followed by Aqua Marina in 2005 and we built Atum Bom in the winter of 2006. No plans to build again just yet....

Plans for 2007:-

Go to all the traveller events, including Carnac (it's our wedding anniversary AGAIN). Get the new T-foil working. Stop wimping out of close boat-on-boat action at the starts. Get 30 boats to the Nationals!

Name: - Will Lee

Position: - Secretary

Boat: - Slug 2688 Atum Bom

Sailing History: -

I've been sailing for a long while, starting in Heron number 2727 'Pica' and a tiny Mirror-like pram dinghy called 'Minnow' in which we had many adventures. Some were like Swallows and Amazons, but many were like Lord of the Flies.

After this, at my home club of Burghfield there was crewing in Enterprises, sailing my own Laser 121952, crewing in a number of Fireballs and in 1992 I bought my Contender 461 before sailing the boat pretty much every day in my gap year. This included the Weston Grand Slam, where I saw my first Cherub blatting along the horizon.

www.uk-cherub.org

I sailed at University but in 1995 I made that call and the rest is History: - I've competed in 10 Cherub Nationals in boats 2522, 2660, 2642, 2673, 2637, 2681 and 2688 since then and I think I'm beginning to get the hang of it now.

Plans for 2007:-

Get some proper coaching; Finish the new T-foil, get the twisty-grip working properly, learn to tack like they do in Higher & Faster, See an Oleo Banjo in the flesh and find out what Oleo Banjo means.

Name Daniel Kemble

Position: - Treasurer

Boat: - Big Issue 2685 Loco Perro

Sailing History: -

I started Sailing when I was about 13 years old in toppers, wayfarers and Comets and have competed in three national schools championships.

I bought my first Cherub in 1991 Montague Egg sail No 2605. I spent a bit of time owning and sailing a Laser 2 before leaving the country in the 1990's. I gave up owning a boat when I was travelling the world but got the opportunity to sail many different boats in interesting places.

Last year I Bought Loco Perro and returned to the class. Taking the "Mad Dog" up to Scotland for the Nationals was an interesting experience which taught me a lot about how the boats have changed since I last sailed them.

Plans for 2007: -

Teach my partners son to sail with me and also continue learning how to sail the boat myself, only now with a T-foil.

UKCCOA Year Book 2007

The Committee 2007

Name: - Gavin Sims

Position: - Technical Officer

Boat: - None

Sailing History: -

I started sailing in 1985, joining in with my dad crewing an SJ30. Soon after he bought a mirror, number 60729, to teach my brother and I to sail in. After several years I inherited the mirror and eventually sailed with my brother as crew. The years moved on and a newer mirror was purchased (69103) which we sailed together in until 1995. During that time I had raced numerous other dinghies, particularly my dad's scorpion, and crewed and helmed small keelboats including Sonatas, J24's and Impalas.

Saundersfoot August Bank Holiday was a regular fixture on my calendar as a youth and that is where I got my first glimpse of a cherub..... doing twice the speed of everything on the water on the tight reaches of the then triangular courses that used to be run. One year I was sailing my dad's scorpion at Saundersfoot, it was blowing a F5+ with a triangular course with a downwind start from the harbour wall. The gun went, the half dozen cherubs that were assembled shot off like rockets and where over the horizon in an instant. From then on my mind was set upon getting a cherub.....

I then moved to Southampton to start university in 1996 and took part in team racing as well as keelboat sailing in Hamble and club racing a fireball at Weston. It was at Weston one day a spotted a small red dinghy bouncing along at speed downhill, I investigated further once ashore and found out it was a cherub and it was for sale. The boat was Dangerous Strawberry and I bought her in the summer of 97. Since that moment I have sailed in 7 cherub nationals, modified 4 boats to 97 rules and built 1 boat, Mango Jam.

I sold Mango recently and am currently boat less..... but I have plans to guest crew Strangely Brown at a few events this year.

The new boat is still in the planning stages.

Position: - Measurement Officer

Boat: - Flying Kipper 2659/2673 Dangerous Beans

Sailing History: -

My first trip on a boat was on my Dads 1/4 Tonner when I was still in a carrycot. So I can't really remember much. My next few sailing outings were all on this boat, with me safely tethered to a deck eye in the cockpit. I got an Optimist for my fifth Birthday, which I sailing around in circles for a few years avoiding the hooting car ferry in Grimsby Docks. Then when I was about 12 I joined Covenham SC's vibrant youth section, this is when I began to race dinghies and shortly after we built mirror 70013. In 2004 I bought Kokopelli, Cherub 2622 and soon a tidy up and a re-varnish turned into a total re-build. After a successful time with Koko I moved onto The Flying Kipper 2659. In early 2007 I bought Dangerous Beans 2673.

Plans for 2007:

Learn to sail my new boat.

Name: - Phil Alderson

Position: - Website and Magazine Editor

Boat: - 2686 Primal Scream

Sailing History: -

I started off sailing in Wayfarers on Loch Linnie in the shadow of Ben Nevis when my parents decided to learn to sail. Then into Mirrors which gave me my first experience of boat repair with some repainting and glassfiber repairs to the spinnaker chute. These tendencies were thwarted by a few years sailing in Lasers, however being let loose with a toolbox and angle grinder on the University Laser II's let me develop my boat abusing repairing skills. A trip out in an International 14 opened my eyes to the whole speed thing and after crewing for a while I had to get one. I sailed and modified my Bennadict 4 K1225 for several years doing several nationals and the Worlds when they were in the UK.

Name: - Tom Kiddle
www.uk-cherub.org

I first saw a Cherub in 1995 when Will invited me down to sail with him in 2522 after a doing another nationals in 2522 and one in 2642 in

UKCCOA Year Book 2007

The Committee 2007

1998 It was time to build, I got a part finished shell from Bloodaxe and turned it into 2681, completing the boat several hundred miles away from any other Cherub or cherub sailor was a learning experience. In 2005 together with Dave Low I built 2686 Primal Scream which I wrecked at the Nationals in 2006. I am now in the process of rebuilding and hope to get sailing soon with my wife Carol.

Plans for 2007: --

Finish the boat and get sailing, get the boat reliable again after rebuild, possibly build a better T-foil and try and learn to tack and gybe properly. Re-launch the website with a new look and some exciting new features.

Name: - Ben Howett

**Position: -
Publicity Officer**

**Boat: - Bistro 2648
Comfortably Numb**

Sailing History: -
I'm told I've been sailing since before I could walk and I certainly don't remember a time without sailing in my life. It began perched in the middle of my granddads enterprise and seems somehow to lead to being perched on the back of a Cherub, and struggling to think of anything id rather sail. The "in between" involves the normal story of toppers, lasers and various crewing positions but once id caught the bug there was no going back. In 2006 I took on the role of Publicity Officer which makes me the main point of contact for the media and responsible for the T-shirts, DVDs, adverts and general promotion of the class. I'm also currently studying Naval Architecture and Small Craft Engineering at the University of Strathclyde.

In 2007 Comfortably Numb will be making up for lost time and hitting the water in anger having spent far too long in the garage and I'm hoping to spend a lot more time on the water than I've managed in the last couple of years.

Name: - Tim Noyce

**Position: - Events
Organiser**

**Boat: - Bistro 2643
Taking Liberties /
Cardinal Sin 2694
Team Hartley
Laminates**

Sailing History: -

My first experience in a sailing boat was apparently before I could walk in my parents Wayfarer down in Chichester Harbour but as you can imagine, I don't remember much of it! A few years later my brother and I got a Mirror bought for us, and to this date is the only boat I have owned that had a brand new set of sails! (Hopefully this will have changed by the time this goes to press!). Many a day was spent sailing 3 up with my Brother and my Dad and many a faster boat was put to shame by 'our' amazing sailing skill... I later discovered that we had very little to do with it, my Dad was just an exceptional sailor!

The 10 years following the Mirror days are my sailing dark ages. The boats were sold and the only time I stepped aboard a boat was on holidays in Greece but this all changed when I started at University. After a year of sailing Laser 2's with my good friend Pablo Diaz Dominguez, I started to get bored and lusted for more extreme sailing. The Cherub class seemed the logical step to a practical student with not too much money and so before long I had a shiny, starry, spotty cherub to call my own! Few hours with the belt sander and it was less spotty which gave me a little more water cred! I continued sailing the Laser 2 and got some good results with Pablo at the helm but the Cherub sailing was what I really loved.

I've now graduated from Uni with my Honours in Product Design and have recently started working at Hartley Laminates, Britain's fastest growing boat builders, and have got a real insight into how boats should be made! Within an hour of starting work I knew I had made the right decision as they were excited to tell me about their latest project... nothing other than a production Cherub. Happy Days! I am also the Events Organiser for the Class Association and have, with help from many people, put together what I think is calendar which caters for all (with the highlight being the Nationals at the Weymouth and Portland Sailing Academy

UKCCOA Year Book 2007

The Committee 2007

where we're hoping for a big, multi national turnout!)).

Plans for 2007:-

Sort out 2643 and make it look like it is owned by someone who knows how to build boats! Go sailing in the new Hartleys boat and see if I can perform anywhere near its level.

Get 30 boats to the nationals in Weymouth.

Name: - Iain Christie

Position: - Ordinary member

Boat: - Bistro 2644 Suicide Blonde

Sailing History: -

I've sailed as long as I can remember, in Toppers, Mirrors and Bosuns (yum!) as a kid, and I've cruised the South Coast, West Country and Mediterranean rediscovered dinghy sailing with my fiancée Katherine about 5 years ago when we joined Draycote Water and bought a £100 Fireball. Since then I've had a Contender and two other Fireballs, including our current Winder, which I took to the 2005 Worlds with 178 other boats where we finished...erm, well, we finished!

My Cherub career started about four years ago after a chat with Will and Lucy at the Dinghy Show and a look at one of the class CDs produced by Daryl. I bought 2539 Team Ecocats (now Whaam!) with I then replaced with a rather tired Suicide Blonde, who underwent major surgery in early 2005, and we went on to win the Silver Phoenix trophy and a top 10 place at our first Nationals at New Quay and on to the high point of my sailing career in 2006, when re-badged as 12' Skiff "Team Practicus" we won the 2006 Bartercard 12' Skiff National Championships.

Name: - Andy Lang

Position: - Ordinary member

Boat: - 2681 Patterson 7 AquaMarina

Sailing History: -

As Social Sec. I'm the one behind the social scene, I organise all the banter and curry houses to accommodate us. I will be organising games and activities at open meetings and blasts. I'm a Student at Plymouth Uni, where I study Marine Sports Technology, & I sail Aqua down there during term time.

I go home to Southampton and sail at Netley where I also have a turbo charged asmy/trapeze scorpion. I'm slightly mad and love big rigs. I first went out on the water before I could walk. I started sailing oppys and toppers, then a scorpion with my older brother until I went into an A class cat at the tender age of 12. After 5 years or so in this I moved into cherubs and love every minute of it!

I started in cherubs with the purchase of 2539 - formerly Ecocats, now Whamm. I got this as a bare hull and sailed her single handed for a year before purchasing 2654, the Flying Trifle - Norfolk In Chance.

Then went through a stage of sailing an Int moth and then a 49er before finally purchasing AquaMarina 2681, Now Training with Tom Gruitt at the sharp end and I'm steering this beast.
